# PASSION FOR SUSTAINABILITY

NDT INTERNATIONAL BV

## 100% GREEN ENERGY

With solar panels and reduced energy consumption already in place, we have now partnered with a leading green energy supplier, producing energy locally in the Netherlands. Expect an impressive 37% decrease in CO<sub>2</sub> emissions compared to 2023 (scopes 1 & 2).

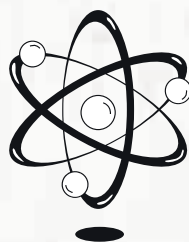

## PACKAGING

We've transformed our packaging by swapping styro-foam for honeycomb cardboard to minimize environmental impact. Our product tags are made from stone paper. Additionally, we are testing a new seal plastic to slash pallet plastic usage by an impressive 56%!

## SUPPLIER ENGAGEMENT

We extend our focus beyond our own organization. Actively involving our suppliers in our sustainability goals, we have introduced our 'Code of Conduct', personally delivered to each supplier and thoroughly discussed. Initiating conversations on sustainability is important. We are sharing knowledge and providing support for potential challenges our suppliers may face.

## WEBSITE

Passionforpottery.com was launched earlier this year, directly catering to end consumers. Consumers can access the site by scanning the QR code on their pot. Its goal is to inform them about pottery maintenance, production, and other key features. Properly caring for pots contributes to sustainability.

'Bringing words and actions together, we move towards a greener era.'

# Outstanding icons

In this world nothing is impossible, we create the realizable. Colours, shapes and, above all, a bit of fun, are the guiding principles. When picking products from this range, it is choosing to stand out. The colour palette is warm, pastel-like, but by adding a few heavier nuances, it is also a solid and above all not fragile, sustainable range.

# Elegant and flowing

It is the refining that makes us happy. We like to make life brighter and lighter. Elegant shapes and round flowing curves are part of this. There is an eye for detail and subtle touches, these give us an eclectic, nostalgic feeling.
